

Staff Report to Council

DATE: Monday, February 6, 2023

DEPARTMENT: Planning

APPLICATION NO.: DVP22-0006

SUBJECT: Application for a Development Variance Permit to reduce front, rear, and interior

lot line setbacks at 960 Latoria Road.

PURPOSE:

Jayson Wight and Charlotte Milne have applied for a Development Variance Permit to reduce the rear lot line and interior side lot line setbacks from 15m to 4.57m and reduce the front lot line setback from 30m to 4.57m to facilitate the construction of accessory buildings and structures for agricultural use on the subject property.

BACKGROUND:

ALR15-0002 – The subject property formed part of the "Block ALR Exclusion" application which was coordinated by the City on behalf of 43 property owners. While some properties were either conditionally or unconditionally approved for exclusion as part of this application, the subject property was not approved for exclusion, and remains in the Agricultural Land Reserve (ALR).

ALR17-0001 – Together with 940 Latoria, application for the exclusion of the property from the ALR was submitted to allow for the redevelopment of the properties for a new elementary school. This application for exclusion was not approved by the Agricultural Land Commission (ALC).

ALR17-0002 – A revised application for the exclusion of a lesser portion of the properties from the ALR for a new elementary school was submitted. This application was not approved by the ALC.

Applicant	Jayson Wight and Charlotte Milne	
Owner	Jayson Wight and Charlotte Milne	
Civic Address	960 Latoria Road	
Legal Description	LOT 4, SECTIONS 78 AND 83, METCHOSIN DISTRICT, PLAN 3895, EXCEPT THAT PART OF SAID LOT LYING TO THE WEST OF A BOUNDARY PARALLEL TO THE WESTERLY BOUNDARY OF SAID LOT AND EXTENDING FROM A POINT OF THE SOUTHERLY BOUNDARY THEREOF DISTANT 180' FROM THE SOUTH WESTERLY CORNER OF SAID LOT, PID 004-085-621	
Size of Property	14,532 m ²	

Langford.ca

DP Areas	Potential Habitat and Biodiversity
Zoning Designation	Agriculture 1 (AG1)
OCP Designation	Agricultural

SITE AND SURROUNDING AREA:

The subject property is located north of Latoria Road and approximately 50m east of Happy Valley Road. The property contains a single-family dwelling and related accessory buildings located in the eastern part of the lot. The site is fairly flat and open, with few existing mature trees along the perimeter of the property.

Subject property is designated as Agricultural in accordance with Official Community Plan Bylaw No. 1200 and is a part of Agricultural Land Reserve. The surrounding area consists mainly of large rural lots within Agricultural Land Reserve.

Table 2: Surrounding Land Uses

	Zoning	Use
North	AG1 (Agriculture 1)	Farmland
East	AG1 (Agriculture 1)	Single-family dwelling
South	C1 (Neighbourhood Commercial)	Future commercial centre
	AG1 (Agriculture 1)	Single-family dwellings, duplex
West	AG1 (Agriculture 1)	Single-family dwelling, duplex

COMMENTARY:

As stated above, the applicants are seeking to vary the rear lot line and interior side lot line setbacks from 15m (49.2ft) to 4.57m (15ft) and vary front lot line setback from 30m (98.4ft) to 4.57m(15ft) to facilitate the construction of accessory buildings and structures for agricultural use on the site.

Table 3: Proposal Data

	Permitted by Section 3.05 of Zoning Bylaw 300	Proposed by DVP Application
Rear Lot Line Setback for accessory building or structure for agriculture use	15m (49.2ft)	4.57m (15ft)
Front Lot Line Setback for accessory building or structure for agriculture use	30m (98.4ft)	4.57m (15ft)
Interior/Exterior Lot Line Setback for accessory building or structure for agriculture use	15m (49.2ft)	4.57m (15ft)

The first staff report considered by the Planning, Zoning, and Affordable Housing Committee on August 29, 2022, included the request for the rear lot line variance required for the construction of the proposed Quonset shed on the subject property. An addendum report was considered by Council on September 6th, 2022 which, in addition to the rear lot line variance required for the construction of the proposed shed, asked Council to consider issuing a variance for the front lot line as well as interior lot line. Although the current proposal of an accessory structure does not require the front or interior lot line setback variances, the owners of the property anticipate that considering the shape of the lot and the setback requirements established by the Zoning Bylaw 300, the same challenge will arise in the future for any additional buildings and structures for agricultural use, potentially leading to multiple applications for the setback variances for the same property. At the meeting of September 6th, 2022, Council decided to have the application go back to Committee for review in order to provide more time for public consultation, as initially notices were sent out excluding the request for front lot line and interior side lot line variances for future accessory structures on the subject site.

As the subject property is rectangular in shape, this results in a shallow lot with a wide frontage of approximately 200m, while the distance between the front and rear lot lines is approximately 70m. Due to the shape of the lot, compliance with the requirements of Zoning Bylaw 300 for accessory building setbacks for the agricultural use will result in the owners having to construct these structures in the middle section of the lot, as illustrated in Figure 2 below. The applicants have noted that they would like to erect their accessory buildings and structures closer to the perimeter of the lot in order to use the land in the center of the lot for growing. As evident from Figures 2 and 3 below, the requested setback variances would dramatically increase the potential area where an accessory structure for agricultural use may be located on the subject property.

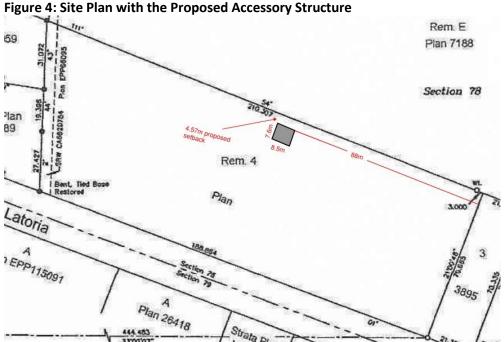

Figure 2: Accessory Structure Current Potential Build Area

The Quonset shed proposed to be constructed on the project site is 7.6m (25 ft) by 8.5m (27.9ft). The applicant conveyed that they are planning to construct a nursery at the subject property and the proposed Quonset shed will be used for storage of tools and equipment associated with the agricultural use of the lot.

As per Section 3.05 of the Zoning Bylaw 300, the total floor area of all buildings and structures that are accessory to the residential use on the site may not exceed 1,533m² based on the lot size of 14,532m² (3.5 ac). This translates to 10.5% of the entire lot and is in addition to the agricultural use accessory building proposed in this application and anticipated to be required in the future. The maximum permitted height of buildings and structures for agriculture use is 12m. For the accessory structures that are not accessory to the residential use, the required setbacks are 7.5m from the front lot line (Latoria Road), 1m from the side lot lines, and 1m from the rear lot line.

Council may wish to note that the structures are not proposed to be used for the keeping of livestock, domestic poultry, or kennels, where the setbacks required by the Zoning Bylaw 300 would be necessary. Council may wish to require that if any building or structure is to be constructed for the intended purpose of keeping farm livestock, domestic poultry, or boarding and breeding of kennels, that the usual setbacks required by the Zoning Bylaw 300 are applied to the structure, or that a new variance is applied for that specific structure.

So, while the applicant does have a particular agricultural accessory building proposed as part of this application, as illustrated in Figure 4, they have requested a "blanket" variance to allow the 4.57m (15ft) setback to be applied to all property lines for flexibility in locating future accessory buildings on the property. If Council is not supportive of this approach, they may opt to issue the DVP only for the currently proposed building and require the applicant to apply for additional DVPs for any future setback variance request.

OPTIONS:

Option 1

THAT Council:

- 1. Direct staff to provide notice that Council will consider issuing a Development Variance Permit for the property at 960 Latoria Road with the following variance:
 - a) That Section 3.05.02(1) of Zoning Bylaw 300 be varied to reduce the rear lot line setback from 15m (49.2ft) to 4.57m (15ft) for the proposed agricultural accessory structure only.

Subject to the following terms and conditions:

- i) That the site is developed in accordance with the plan shown as Figure 4.
- ii) That environmental Development Permit or an exemption from a Development Permit is obtained prior to construction of an accessory structure.
- iii) That a Building Permit is obtained prior to construction of an accessory structure.

OR Option 2

THAT Council:

- 1. Direct staff to provide notice that Council will consider issuing a Development Variance Permit for the property at 960 Latoria with the following variance:
 - a) That Section 3.05.02(1) is varied to reduce the rear lot line and side lot line setback from 15m (49.2ft) to 4.57m (15ft) and to reduce the front lot line setback from 30m (98.4ft) to 4.57m (15ft) for any agricultural accessory buildings and structures on the property.

Subject to the following terms and conditions:

- i) That any building or structure on the subject property that is constructed for the intended use of keeping or farm livestock, domestic poultry, or boarding or breeding kennels, will comply with the setback requirements in Zoning Bylaw 300 or apply for a Development Variance Permit.
- ii) That an environmental Development Permit or an exemption from a Development Permit is obtained prior to construction of an accessory building or structure.
- iii) That a Building Permit is obtained prior to construction of an accessory building or structure.

OR Option 3

THAT Council:

1. Refer the application to staff for additional public consultation prior to consideration of issuance.

OR Option 4

THAT Council:

1. Reject this application for DVP22-0006.
